To Whom It May Concern,

I am writing this letter of recommendation for Martha Lopez Aguirre. I had the pleasure of working with Martha as her Physics teacher for the 2021-2022 school year as well as her advisor when she participated in science fair. Throughout these times, I came to know her as an intelligent, hard - working, and driven individual.

Both in class and through science fair, I was impressed with Martha's commitment to academic success. I consistently witnessed her take the initiative and do the hard work to achieve the level of understanding necessary to be successful. She has a clear goal and passion of working in the computer sciences and technology. She has and continues to proactively seek out rich experiences that support this goal through her participation in STEM events put on by Fresno State, her leadership position in our Who Codes Club, and coding classes at The Center of Advanced Research and Technology in Fresno.

Her positive attitude and natural leadership tendencies served her well as a member of a team during lab and other partnered activities. She was always willing to respectfully engage all team members in working towards the goals placed before them. Her excellent communication skills allowed her to effectively work with a diverse group of peers. This transcends the classroom as she will represent her peers in a presentation to our counselors about their academic experiences.

I highly recommend Martha for this position. She has a strong set of academic and personal skills that will serve her well moving forward. She will become an asset to your team, as she was in my class and on our campus here at Clovis East.

If you have any questions about this exceptional student, please contact me at the email address or phone number provided below.

Sincerely Submitted,

*Morgan Olko*
